

Leader in *BIOMETRIC* RFID IoT Products & Solutions and Cloud Platform for Workforce Management and Access Control

Last update made on June, 2022.

*Please note that as an IoT cloud solution, all software and hardware MUST be under warranty for any support services, due to product and solution complexity, problems occurred which often have nothing to do with our products but due to end user network settings etc, we end up trouble shooting end user network.

If only software is under warranty, we will ONLY support the software and WILL NOT service any issue related to hardware and vice versa for hardware.
