ACTAtek Unified Platform — Managing People · Security · Environment · Energy

OUR COMMITMENT TO BEST VALUE

The ACTA series of hardware was first launched at Cebit 2004, the largest IT exhibition in the world, with much acclaim. It received numerous awards including Product of the Year from SC Magazine (USA), Network Products Guide (USA), and the Frost & Sullivan Biometric Product Market World Penetration Award in London.

We are the Best Value Provider. We deliver the best value in solutions with biometric RFID authentication IoT products and Cloud Platform for workforce management and physical security:

12 Reasons to Choose ACTAtek Limited

01	10-Year Product Lifetime*	Minimum 10 years' product lifetime, from launch to end-of-life (EOL), for both hardware and software products.
02	Industrial-Grade Components	We use only industrial components with extended operating range, manufactured and quality controlled to the highest ISO standards—guaranteeing wide operating conditions and longevity compared to consumer-grade alternatives.
03	Stand-Alone Operation	All products work stand-alone when the network is down, or as part of the network when connectivity is available.
04	Flexible & Scalable Integration	Flexible and scalable integration to any network, without limits, into any cloud—private or public—and any database structure.
05	Anytime, Anywhere Access	Full control of products and database, hosted in personal, public or private cloud, with pay-as-you-use options available.
06	Online Upgrade & Maintenance	User and firmware upgrades, service and maintenance online with SNMP compliance.
07	Flexible Extended Warranty	Flexible extended warranty coverage that offers technical support to minimise downtime.
08	Future-Proof Solutions	Best combination of biometric RFID IoT platforms and applications—giving you the best possible future-proof solution.
09	Cross-Platform API	Cross-platform support allowing straightforward integration with third-party databases and applications via cross-platform API.
10	Leading Network Security	Hardware and software with best up-to-date network security features, constantly upgraded to plug security loopholes and minimise unauthorised access.
11	Global Standards Compliance	Biometric products adhering to the latest WSQ, ANSI and ISO standards, with support for ISO RFID cards.
12	Continuous Improvement	Continuous improvement with state-of-the-art technologies and quality control giving our customers simple-to-use, high-quality products.

[CONTACT US TODAY](#)

Don't waste your time searching for solutions. Contact ACTAtek Limited or its Authorized Dealers today for a demonstration and quotation tailored to your needs.

IMPORTANT NOTE

As an IoT cloud solution, all software and hardware MUST be under warranty for any support services. Problems often occur due to end-user network settings, not ACTAtek Limited products. If only software is under warranty, ACTAtek Limited will ONLY support the software and WILL NOT service any hardware-related issue, and vice versa.

**Subject to availability of semiconductor and other components which are beyond the control of ACTAtek Limited.*
